Even the opponents of the Darien canal must admit that it has done good in reviving the agitation of the Nicaraguan scheme. That project has been fitfully agitated for more than thirty years past without effect. If the construction of the isthmus waterway leads to the building of the Nicaraguan canal two birds will be killed with one stone, and the United States, with the rest of the civilized world, will be a double gainer thereby.

Victor Hugo was talking about age, and confessed, in a charming humor, that the most disagreeable advance to him was that from thirty-nine to forty. "Oh, that terrible forty!" he said. "But," remarked some one, "I should think it a great deal better to be forty than fifty." "Not at all," replied Hugo, "forty years is the old age of youth, while fifty years is the youth of old age."

THE CURRENCY QUESTION.

Notwithstanding the fact that thousands of people are at present worrying themselves almost to death over this vexed question, even to the extent of neglecting their business, their homes and their duty to their families, there are still thousands upon thousands of smart, hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka & Santa Fe Railroad offers them their choice of 2,500,000 acres of the best farming lands in the West at nominal new own prices. You will not believe it, write to the undersigned, who will tell you where you can get a cheap land exploring ticket, and how, at a moderate expense, you can see for yourself and be convinced.
